Article: 9631 fabric

Dimensions in mm	Backrest:	H:	500
	Seat:	H:	570-830
		B:	460
		T:	410-470
Packing data	Weight	kg	20,0
	Volume	m ³	0,25

Base equipment

Benefit

Seat and backrest

Large, ergonomically designed backrest to take the strain off the spine and muscles.

Healthy posture due to a hump providing support for the back in the lumbar region.

Ergonomically designed, extra high seat. With integrated pelvic support and rounded front edge of the seat.

The seat automatically encourages the correct posture and upright, healthy sitting. The round front edge of the seat prevents blocked circulation in the thighs.

Duotec fabric upholstery:
Resistant, respiratory and comfortable fabric
Selectable in following colours:
Black (6801)
Blue (6802)
Grey (6811)
Red (6803).

This high-quality fabric upholstery is breathable and can both absorb and expel moisture. The extremely soft surface guarantees maximum comfort.

Seat height

Stepless seat height setting from 570 - 830 mm supported by safety gas spring with protective cover.

The seat height adjustment can be adapted to the body size and the height of workbenches. Wide range of height adjustment.

Ergonomic package

Synchronous mechanism with weight regulation.

The synchronous mechanism ensures that the seat and backrest tilt are automatically adjusted in line with the user's current posture. This results in dynamic sitting which relaxes the muscles, relieves strain on the intervertebral disc, improves circulation and boosts concentration and performance considerably. Continuously variable weight regulation system ensures that the backrest responds in accordance with the pressure which is applied. The synchronous mechanism is particularly useful in cases where a frequent change in working posture is given.

Seat inclination (up to 6°)

The continuously variable tilt adjustment function, which can be used to tilt the seat forwards ensures a minimum seat angle of 90° even when leaning forwards into the work.

Seat depth adjustment (Stepless by 60 mm)

Seat depth can be adapted to all body sizes.

Backrest height adjustment

Ensures the best possible support of the lumbar region - regardless of the operator's size.

Quick adjustment

All the adjustment functions allow quick and easy operation via levers while the user is sitting.

Anti-Shock lock

The backrest cannot accidentally spring forwards even after the lock has been released.
